NursingCAS

The Centralized Application Service for Nursing Programs

NursingCAS 2017 – 2018 Cycle Reports Available

Comparative Reports that Show Data for Both Your Applicant Pool and Your Entire NursingCAS Applicant Pool - these reports can be run by Applicants or Applications and you can also limit the results by decision code, such as Admit, Deny, etc. Keep in mind if any of your programs are not set to full verification (i.e. full transcript entry and official transcripts) then full GPA data will not render.

- **Ages** – A summary of age ranges reported by your applicant pool
- **Ages by Gender or Sex** - A summary of age ranges reported by your applicant pool, broken down by gender
- **Applicant Distribution By Month** – Charts each month, starting with the previous month you pull the report, to a year before. Include number/percentage of applicants based on received, complete, and verified application statuses

You can also build custom reports by using the list manager and/or export tool to pick and choose which fields and which applicants (list manager allows you to filter by certain criteria) you want to include in a report. You can save any report as a template and bookmark it to run at a later time. Click here to see a video about Reporting in WebAdMIT. And here's a link to a video on data integration which includes an overview on lists and exports.
